### WHY THIS CONFERENCE?

According to Kentucky Department for Public Health statistics:

1. In Kentucky the AIDS rate for African Americans is approximately 7 times higher than the rate for Whites/Other races.
2. African Americans comprised 7.5% of the 2004 Kentucky population, yet 34% of AIDS cases diagnosed in that year. The AIDS rate for African-American males is approximately 5 times higher than white males and the AIDS rate for African-American females is 19 times higher than white females in Kentucky.
3. Hispanics comprised 2.2% of Kentucky's 2004 population, however, accounted for 7% of AIDS cases diagnosed in 2004. The AIDS rate for Hispanic males in Kentucky is 5 times higher than white males and the Hispanic female AIDS rate is approximately 4 times higher than white females in Kentucky.

### WHO SHOULD ATTEND?

This conference is designed for anyone interested in stopping the spread of HIV/AIDS in the African American and Hispanic Communities. Health care and social service professionals who are involved in planning and/or providing direct delivery of services to African American or Hispanic persons living with HIV/AIDS in Kentucky, as well as persons who are interested in improving the quality of life for people living with HIV/AIDS. Leaders of all segments of the community are asked to attend to get information and the knowledge to mobilize their communities to help stop the spread of HIV/AIDS.
